SUMMARY

I am a Full Stack Developer with 2 years of experience in building and maintaining scalable web applications. I work across both frontend and backend technologies, enjoy solving real-world problems, and continuously learn new tools to deliver efficient and user-friendly solutions.

SKILLS

Languages: Python, Java, JavaScript
Frontend: React.js, Next.js, Redux, Bootstrap 5, Tailwind CSS
Backend & APIs: Django, FastAPI, Node.js, Express.js, RESTful APIs, Authentication (JWT, OAuth)
Tools & Testing: Git, GitHub, Postman, Unit Testing (PyTest)
Database: MongoDB, PostgreSQL

EDUCATION

Jun 20 - Jul 23 **Sir Visveswaraya institute of technology, Nashk**
Bachelor of Engineering - Information Technology
CPGA: 9.02

Jun 17 - may 20 **Amrutvahini Polytechnic, Sangamner**
Diploma - Computer science
Percentage - 93.53

EXPERIENCE

may 24 - present **Full-Stack Developer** **64SQR APEX LLP, Pune**

- Developed and maintained end-to-end application features, contributing to both user-facing functionality and server-side logic.
- Worked on building scalable solutions, improving application performance, and ensuring smooth integration between different system components.

ReactJS / Redux / Django / Tailwind css / celery / PyTest / PostgreSQL

May 23 - Jan 24 **Software Testing Intern** **ExcelR, Pune**

- Executed integration testing using Selenium, TestNG, and Java frameworks.
- Designed comprehensive test processes, cases, and data for effective testing.
- Conducted database testing with BDFit and performance testing using JMeter.

Selenium / Junit / Postman / Jmeter / TestNG / Maven

PROJECTS

Full stack project **Vizismart - Property Management System** **app.vizismart.com**

- Developed and maintained a property management system seamless communication between tenants, vendors, and property owners.
- Tenants can create maintenance tickets via chatbot or voice assistance, vendors can provide quotes and updates, and PMs can oversee approvals and interject in conversations if needed.

React+Django Framework **Emoji-Talk** **github.com/emoji-talk/io**

- Emoji-Talk is an interactive web application that converts user-entered sentences or paragraphs into expressive emoji-enhanced text for fun and engaging communication.
- Additional features are actively under development to expand the platform's capabilities.

ReactJS Framework **Portfolio Website** **kalyanideshmukh.fullstack.portfolio**

- Developed a personal portfolio website using React to showcase skills, certifications, and many more.
- Integrated a database to securely store contact form submissions
- Created a responsive and user-friendly interface to ensure seamless usability across devices.

CERTIFICATIONS

Sumago Infotech - Implant Training By Sumago Infotech on front end development.
Hackerrank - Successfully passed Java and Python skill certification assessments.
